A BATTLE AT MUKDEN

Is Reported by Dispatches to Be Near at Hand.

Japs Advancing on Russian

Flanks, and Skirmishing Is Continuous. Oyama Tells Tokio That Russian Cavalry Is Daily Scouting Southward. St. Petersburg Thinks Battle Distant.

A Mukden dispatch today says the Japanese are reported to be advancing on the Russian flanks and that skirmishing is continuous. The same dispatch says the Russians are occupying the surrounding villages and that a battle near Mukden is imminent.

St. Petersburg, however, still adheres to the belief that no serious engagement is close at hand, and says that only outpost affairs are reported. Marshal Oyama reports to Tokio that the Russian cavalry is daily scouting southward.

Mukden, Sept. 17.—The Japanese are reported to be advancing on both flanks, from the east, southeast and southwest.

The outposts are closely engaged 20 miles southeastward, there being almost constant skirmishing.

Indications point to another great battle in the vicinity of Mukden. Russian troops occupy all the surrounding villages. Refugees are flocking into the city. Chinese among them complain of severity on the part of the Japanese.

Che Foo, Sept. 17.—4 p. m.—A Japanese who arrived here today reports that the citizens of Dainy on September 15th expected that the general attack upon Port Arthur would be renewed upon the following day. He has reliable information to the effect that the Japanese siege works at Rihlungshan and Vikwanshan were complete on September 15th.

Both Chinese and Japanese recent arrivals agree that the bombardment of Port Arthur became terrific at dawn of September 15th and continued until the forenoon of September 16th. The Japanese fired from Shushiyen and Palungshan at Pigeon Bay, where heavy guns from Japan have been placed in position lately. The shells fell with great frequency in the Chinese new town.

Yankiatung, which is a village at Pigeon Bay, and has been occupied by the Russians, has been evacuated by them secretly. The Japanese have not occupied the village.

Five hundred cavalrymen who attempted to drive the Japanese from Palungshan have not returned and it is believed that the fortress there has been captured.

EXPLOSION FOLLOWED THE

Introduction of Hot Rivet Into Tank Car, and Pennsylvania Employee Was Killed.

Altoona, Pa., Sept. 17.—George Bailey, an employee of the Pennsylvania company freight car service, met his death in a singular manner. While assisting in adjusting a safety valve on the dome of an empty oil tank car he got into the man hole to hold a rivet, which was about to be driven. When the hot rivet was driven into the side of the tank, an explosion followed and Bailey was blown out of the man hole and through the skylight in the roof of the shop. The shattered and dismembered body fell back again to the floor of the shop. The explosion is supposed to have been caused by an accumulation of gas in the tank.

In the early part of the day the president and Mrs. Roosevelt took a long horse-back ride, passing in the course of the ride, through the village of Oyster Bay. They were greeted cordially by many of their neighbors and towns people.

Wants Two Hundred Thousand Dollars for Services Rendered Mitchell in Settling Strike.

Wilkesbarre, Pa., Sept. 17.—The district presidents of the United Mine Workers, Nichols, Fahy and Dettrey, are in town to meet President Mitchell who will arrive here from Washington today. A conference will be held between the national president and the district presidents relative to the suit at Binghamton, N. Y., in which A. D. Wales, an attorney of that city, seeks to recover \$200,000 from president Mitchell and the United Mine Workers, for settling the miners' strike two years ago. The case will be heard next week.

James Duffy and James Mitchell, representing the striking textile workers of Fall River, Mass., are also in town.

FOUND BOTH OF THEM DEAD.

Sweethearts Suicide Under Circumstances Which Indicate It Was All Premeditated.

Zanesville, O., Sept. 17.—Miss Nellie Geyer and James Mitchell, sweethearts, committed suicide today under circumstances showing a premeditated agreement, although they did not die at the same place and possibly not at the same hour.

The girl left a letter to her mother foretelling the deed and leaving no doubt that there had been an agreement for the double tragedy during the night. Mrs. Parker, with whom Nellie Geyer was staying, was aroused before day-break by groans, and found Nellie in a pool of blood in her room.

The Battleship

Whose Name Is Withheld, Hit Target.

Acting on Belief That Naval Battles Will Hereafter Occur After Night

The Navy Is Being Put Through a Course of Severe Training. Records Made Under Speed Are Remarkable.

Washington, Sept. 17.—Remarkable results have already been obtained in the naval target practice now going on in Menemsha Light. The vessels of the north Atlantic squadron in last spring's target practice broke all the world's records for rapidity and accuracy of fire, both with big and little guns. But this was daylight work under favorable conditions for good shooting. The big ships are now doing some extraordinary night shooting. The experience of the Russo-Japanese war has convinced the general belief that in the future the great naval battles may be fought at night and it is certain that most of the torpedo work will be done in the hours of darkness. Hence it is believed to be essential to develop the gun pointers in night work and already surprising results have been obtained in the practice in the night.

Using her 8 inch guns, one of the battleships made 8 hits out of 9 shots at night. The target distance about a mile was illuminated by a search light and the gunners used a special night sight. The ship from which this shooting was done was forging ahead in the open sea at ten knots.

CHANGES

Well Be Made in Location of Preachers

Rev. Tansyhill Defends His Handling of Affairs of the Lakeside Resort.

Marysville, O., Sept. 17, 1904. Saturday morning's session of the Central Ohio conference opened by devotional services led by Bishop Cranston.

At this morning's session of conference several transfers were made. There will be several changes in this district if all rumors are true. It is said that Williams street, Delaware, has asked to have W. W. Lance removed, and in his stead they would prefer R. D. Hollington, of First church, Kenton, or C. R. Havinghurst, of First church, Findlay. These men have both been asked to return to their present charges, and it is said that they themselves prefer to return. Rev. T. L. Whitsee, of the Marysville church, will be transferred to the Cincinnati conference, and Rev. Smith, of Epworth church, Marion, has been asked to come here. Rumor says he positively refuses to do so, and will go back to Marion.

Yesterday afternoon Rev. C. W. Tansyhill, secretary of the Lakeside association, addressed the conference as to his relation with that institution. He says that when he went there there was a debt of \$41,000, and that a new dock was put in at a cost of \$14,000, making a total indebtedness of \$55,000. This full amount was subscribed, but only \$21,000 was ever paid in. Legal proceedings were taken and Lakeside sold, with still an indebtedness of \$22,000, which will have to be paid by the stockholders.

At 2:30 yesterday the semi-centennial sermon was preached by Rev. S. L. Roberts, D. D., who has been an active minister for over 50 years, and now resides on the Defiance circuit. On the pulpit with Rev. Roberts were the following ministers who have preached the gospel for 50 years or more: Joshua A. Longfellow, J. R. Colgan, A. C. Barnes, N. B. C. Love, Hamilton J. Bigley and Dr. Jabez Blair. Dr. Roberts told, how, in the early days of his ministry, they had to travel by horseback, and of the different mores and methods of the people in those times.

The appointments will probably be made Monday. W. S. MAHON.

IS POSSIBLE THAT BRYAN

Will Make One of His Ohio Speeches at Point in This District.

Columbus, O., Sept. 17.—Much interest is evinced in the result of democratic chairman Harvey Garber's visit to New York. Garber is expected here Monday. Burke Cockran, Hon. John Sharp Williams and Hon. Charles A. Towse are among the other expected orators, and it is possible that Hon. W. J. Bryan will be secured for a speech or two, to be delivered in the Fourth and Fifth congressional districts.

AFTER COLLIER FOR TAKING STATE'S MONEY.

Columbus, O., Sept. 17.—Assistant County Prosecutor Seymour is at work in the office of the chief examiner of the state board of engineers, obtaining evidence upon which he proposes to secure an indictment against George M. Collier, former chief examiner, who ran away with about \$1,400 of the state's money, and is still at large.

Columbus, O., Sept. 17.—Mr. Adam Fendrick, leading citizen of Groveport, O., and former infirmity director, took strychnine with suicidal intent at his home last night, and died in an hour. Fendrick leaves a large family in comfortable circumstances. No cause save mental depression.

HICCUGHS CAUSE DEATH.

Aged and Wealthy Banker Who Helped Nominate Buchanan for President Succumbs.

Dover, Del., Sept. 17.—Dr. Henry Ridgely, president of the Farmers' bank of Delaware, and one of the wealthiest and most prominent citizens of the state, died suddenly at his home here today. His death was directly due to hiccoughs. He was 97 years of age.

Dr. Ridgely was graduated from St. Mary's College, Emmittsburg, Md., and received his medical education at the university of Pennsylvania. In 1856 he was a delegate to the Cincinnati convention, which nominated James Buchanan for the presidency. The Delaware legislature appointed him to represent the state in the peace congress held in Washington in 1861.

Machine With Occupants Rolled Over and Over Down Thirty Foot Embankment, Crushing Driver Beneath It. Effort to Prevent Collision Caused the Accident.

Baliwin, Mo., Sept. 17.—In endeavoring to turn out to avoid a farmer's wagon, an automobile containing two men and two women was precipitated down a thirty-foot embankment near here today, killing one of the occupants and injuring the others.

The injured:—

Edgar Parkhurst, Baliwin, seriously.

Miss Lou Marquitz, St. Louis, seriously.

Miss Nellie Marquitz, St. Louis, seriously.

The party had been for a pleasure trip and were returning to Baliwin

when the accident occurred. The automobile was moving at a rapid rate, when, on turning a sharp curve, Kalleen, who was acting as chauffeur, noticed a farmer's wagon coming towards them, there appearing to be room to avoid him in the road. The wagon turned out, but the outside wheel slipped and the machine slid down the embankment, turning over several times.

Kalleen was caught beneath the auto and crushed. The injured were taken to Baliwin, where they were attended by a physician.

It is believed that Parkhurst and Miss Lou Marquitz will recover.

TWELVE MEN SAID TO BE IMPLICATED

In Killing of Deputy Sheriff Thrift, Came Into Town and Surrendered Themselves to the Sheriff. Situation Quiet.

Baxter, Fla., Sept. 17.—Twelve of the men said to have been implicated in the killing of deputy sheriff Thrift, came into town and surrendered to Sheriff Herndon. They were quickly started for Jacksonville on a special train, under guard of the militia.

Those surrendering, in addition to the eight men arrested yesterday, were Charles Altman and Hillary Altman, who are charged with the murder of Jackson Duncan and the negro Jim Rely; Jesse Altman, who shot W. N. Duncan; and R. Harvey and A. Harvery, charged with being members of the mob; Will Daiting, Alex. W. H. Johns, George Johns and Cauley Johns.

Jesse Altman had been hiding since yesterday, and came in by himself. Hillary Altman has a bad wound in the right shoulder. None of the others were wounded.

Sheriff Herndon and his deputies have the situation well in hand and no more trouble is anticipated.

WHEAT

Market Went All to Pieces.

It Lost Fully Three Cents in New York Market.

Corn Followed the Wheat Decline, Losing a Cent Because of Prospects

That Any Good Drop Would Let in Big Short Trade. Chicago Saw Fall of Four Cents in Wheat.

New York, Sept. 17.—The wheat market literally went to pieces today. In a little more than an hour's time it lost fully three cents a bushel, making seven cents decline from the highest point of the week. Traders who bought around 1.18 and higher, expecting to sell out around 1.25 considered themselves fortunate if in the demoralized prices of the forenoon they got better than 1.14. December sold to 1.13%, before there was any check to the drop. It closed last night at 1.16%. Bears predicted heavier receipts and cast doubts on the recent crop damage news. Under the circumstance bulls made the most of the situation.

Corn followed the wheat decline, losing a cent because of prospects that any good drop would let in a big short trade.

Four Cents at Chicago. Chicago, Sept. 17.—As a result of heavy liquidations and of liberal selling on stop loss orders wheat dropped four cents here today. At the low point wheat for May delivery sold at 1.11 a bushel, while at the same time the December option sold

at 1.09. The sharp break today practically wiped out the sensational advance of the fore part of the week. The market closed practically at the lowest point of the day. Prospects of a continuation of favorable weather conditions throughout the country were main influences in causing the break.

Last evening several of Mrs. F. T. Cuthbert's friends, who knew that it was her birthday anniversary, planned a surprise by going with picnic baskets to assist in the celebration. In some manner Mrs. Cuthbert was apprised of their intentions and at once became the mistress of the situation. The furniture was removed from the sitting room and a miniature grove formed by placing in large branches of forest trees, vines were strung from these—grape vines with the delicious fruit, within reach overhead, were tempting. The table in the center of the room was indeed beautiful. The cloth was covered with ferns, and through the ingenuity of Mr. Cuthbert, in the role of a nat-

uralist, an occasional lizard, frog or spider was discovered. In the center was a great bunch of American beauties and little green candles marked each place. Needless to say the guests did as much justice to the occasion as though they were feasting out under the green-wood trees.

The Federation of Women's Clubs will hold an important meeting at the home of Mrs. C. F. Lufkin on next Friday afternoon at three o'clock. An interesting program has been arranged and every member, every club woman, is urged to attend, that the interest be more general and the efforts more united.

A BRAWNY EVANGELIST.

He First Whipped a Bully and Then Brought Him to Church.

A Methodist minister tells the following story about the late Sam Rozel, the great Virginia evangelist, who in his day was one of the best known pulpit orators in the south:

"Sam Rozel was a very big man and had a wide reputation for physical strength. In his college days he came off the field of combat, usually a circumscribed and secluded area of the campus, wearing the laurel of victory on many occasions, and after he became a preacher stories of his physical prowess were spread far and near. "One day he went to a village to hold a protracted meeting. The village blacksmith, who was a very big man, and who was recognized, especially among the tavern habitués, as a pugilistic wonder, heard about the coming of Rozel, and the villagers did not fail to tell him all they had heard about the size of the parson's arm and the length of his legs, and of the convincing way he had of closing an argument with his fists.

"All this nettled the smith considerably, so when Rozel reached the town he sought him out and asked him to fight.

"Rozel, of course, said he did not want to fight, but the smith kept on insisting, and finally Rozel became angry and agreed to gratify the fellow.

"They fought. Rozel literally wiped up the ground with the big man. When he had pounded him until the poor, vanquished bully was gasping hard, Rozel picked him up and threw him over a fence.

"The blacksmith had not said a word since the affair began up to this point. As he rolled over on the other side of the fence, however, he called out:

"'Say, parson, kindly throw my horse over too. I'm going away.'"

"But Rozel followed the man to his home, and had him sitting on a front bench at the meeting that same night singing louder than any one else."

NAST'S SURPRISE.

Dramatic Climax in the Convention Which Nominated Grant.

In May, 1868, the Republican national convention came along. Nast went to Chicago to be present.

It was settled beforehand that General Grant was to be the Republican presidential candidate. The great soldier had maintained a calm and nobility through all the trying days of conflict between congress and Andrew Johnson and was now honored almost as much for his diplomacy as for his success at arms. Indeed the mantle of sweet renown left by Lincoln would seem to have been laid upon the shoulders of Grant, and he wore it with becoming grandeur and humility.

Realizing that the convention would name Grant as its choice, Nast prepared a little surprise for the event. He pointed upon a large curtain the White House entrance, with two pedestals, one on each side, bearing the words, "Republican Nominee, (Chicago, May 20)," and "Democratic Nominee, New York, July 4," respectively. On the Republican pedestal was seated the figure of Grant, while Columbia stood pointing to the empty place opposite. Below were the words, "Match Him!"

This curtain, with a blank curtain before it, was suspended at the back of the convention stage. At the instant when General Grant was announced as the unanimous presidential choice of his party the blank curtain was lifted, and the great cartoon, "Match Him!" was suddenly exposed to full view.

The occurrence was so unexpected that the throng was silent for a moment, taking it in, then, realizing that it was a spectacular climax, the pictorial expression of a universal sentiment, the assembled multitude gave vent to an enthusiasm that turned the great hall into a pandemonium of exultation.—Albert Bigelow Paine in Pearson's.

A Valuable Scrapbook.

To devote a scrapbook to one subject makes it much more interesting and valuable, and when you begin to gather material on any one theme you will come to find out that you will want to know all about some famous person, either in the public eye at present or some one of past times. From magazines and other sources can be collected articles, portraits, perhaps poems in relation to the subject, etc. When matter is clipped, the scrapbook maker may copy it neatly with a pen into a book. The educational value of such a book is something worth while, as well as the satisfaction of having gathered oneself so much information on a single subject.

Artemus Ward's Protector.

While in the show business in Pennsylvania Artemus Ward was put to sleep in an attic where the sash had been taken out for ventilation. In the night it turned cold. Artemus got up and was busy at the window. "What are you doing, Artemus?" his companion asked. "I'm so cold," he chattered. "I was hanging up some of these hoop-skirts. I thought they'd keep the coldest of the cold out."

His Experience.

"There are some songs that will never die," said the musical enthusiast. "I guess that's right," answered Mr. Cuneox. "My daughter sits down at the piano and tries to kill a few of 'em every evening. But it's no use."—Washington Star.

NEWBRO'S HERPICIDE.

THE ORIGINAL REMEDY THAT "KILLS THE DANDRUFF GERM."

SCHOOL CHILDREN. AN IDEAL HAIR DRESSING.

Every school child should know that Baldness is a contagious disease, caused by a microbe. Prof. E. A. Hanbury, Germany, discovered that dandruff, falling hair, and final baldness are produced by a dandruff microbe that passes from one head to another, where it burrows into the scalp and by multiplying and extending its deeper and deeper into the hair follicles, steals the life of the hair root and produces baldness.

IT TAKES YEARS to produce complete baldness, for the action of the dandruff microbe is not constant in every case. It is governed by predisposition, by the state of health, by environment, but particularly by the influence made to combat the growth and development of the dandruff microbe, which can only be destroyed with Newbro's Herpicide.

This new anti-septic scalp germicide is not the usual medicinal stuff. It was made to destroy the dandruff microbe, and falling hair, and by causing energy back into the hair, which is lost by the dandruff microbe, and by and by, the hair grows again. Thousands of letters from physicians, clergymen and laymen tell the same story of its wonderful success.

WEATHER.

Washington, Sept. 17.—For Ohio,
West Virginia, Kentucky and Tenn.,
fair, warmer tonight; Sunday, fair.

If Wall street and the trusts are be-
hind Judge Parker in his campaign for
the presidency, why is it the Wall
street Journal, which represents the
political pulse and the business de-
sires of that thoroughfare is with all
its might advocating the election of
Roosevelt?

Why is it too, that Wall street brok-
ers are offering odds of three to one
that Roosevelt will be elected?

This reason is the men doing busi-
ness there in a speculative and trust
forming way are for him and have
promises from him that if elected he
will be favorable to a continuation of
their methods.

ROTTEN BUSINESS.

There is trouble of a serious nature
not boiling for a coterie of policemen
who have been running the police af-
fairs of this city with a high hand for
several years.

The culmination almost came when
an official was suspended a few days
ago pending the investigation of
charges filed against him for grafting,
and from the consequence of which,
he only escaped through testimony in
which many people place but little
credence.

It was then generally thought that
from that time on favorites would be
played, and one James Gunchon, pro-
prietor of the Oak, who testified that
he had been conducting a gambling
house, and that he had been paying
\$100,000 to the police, was the only
one who was not a favorite.

Eruptions

Which has cured thousands.

members of the fraternity who stood
by the officer in the hour when official
decapitation threatened, a full field for
operation.

That the turn was called came true
last night when Gunchon was arrested
on a warrant sworn out Sept. 1 by
Chief Mills, charging him with con-
ducting a gambling house.

The Times-Democrat has it upon re-
liable authority that since the trial of
Detective Patton the Gunchon crowd
has not conducted gambling in their
rooms. We also have it from an
equally reliable source that three other
rooms, two of which are run by men
who stood for Patton when in distress
have been running it full blast, and
with the knowledge of members of the
police force, during all of this fair
week.

The Times-Democrat has no hesi-
tation in saying that the police force is
rotten to the core; that it is a wheel
within a wheel; that the chief is under
the domination of Detective Patton
for reasons known to themselves, and
they feel themselves all powerful, not
only against the mayor, but to crush
any and all who defy their demands.

Gambling should be stopped in this
city, but so long as there is a police
force which is susceptible to the in-
fluence of graft, and under the subtle
power of that medium plays favorites,
gambling will continue.

With this condition of affairs exist-
ing, it is time something should be
done to put a stop to all gambling by
the eternal suspension from the police
body of the present city detective and
the chief of police, and the appoint-
ment of men who will do their duty.

These men are sworn to do their
duty in the enforcement of the laws,
and their failure to regard their oath
is a greater violation of honor than
the running of a gambling hell.

The machine they have built
around themselves, made up of tin
horn gamblers and men, some of
whom have distinguished criminal
careers, can only be destroyed by
striking at the fountain heads which
perpetrate them to continue their nefar-
ious and illegal business in this city.

It develops today that the warrant
upon which last night's arrest was
made was of no force or effect and
that Patton says he will issue another
warrant upon the specific charge that
Gunchon was running his gambling
rooms last night.

While at it Mr. Patton should see
that warrants are sworn out against
the balance of the card dealing fra-
ternity. Such action would unques-
tionably improve his standing as an
honest public official.

JAPANESE COURAGE.

Why describe the Japanese courage
as fanatical? It appears to be any-
thing but that. There has been nothing
fanatical in the movement against
Port Arthur either by land or sea.
Every step has been calculated, and
well calculated. Fanaticism would
have attempted to rush things re-
gardless of consequences. In carry-
ing out a carefully considered plan an
army when in touch with the enemy
is expected to throw itself upon him
with a full heart for the work. That
is what the Japanese are doing. But
they have done it before. They did it
conspicuously ten years ago in the
war with China. What causes some
people to marvel now is that the same
spirit should be shown against Rus-
sia. Why not? The superior enemy
but provokes the fighter to greater
deeds. Lucky would Russia be if she
were confronting a nation of fanatics.
The Japanese belong to no such class.

ANECDOTE OF SENATOR HOAR.

The sympathetic interest of the
country in the illness of Senator Hoar
calls one of his own relatives about
his elder brother. The Boston papers
had announced the serious illness of
Judge Hoar, and a group of his friends
observing the senator at breakfast in
a club-room hurried over for informa-
tion.

"Oh, yes," replied the senator, gen-
erally, "my brother was ill. His family
were all off and I was away, and there
was not a person to differ from him.
He was lonely as any Katydid without
another to cry Katydid. I came
back to town, hurried up to see him,
contradicted everything he said, and
we had heated arguments. Now he is
better, much better. He will soon be
himself again." And he was.—Har-

Made No Attempt to Answer.

"It is a notorious fact that there are
not few humorists among the many
thousands of Indians in this country,
and I therefore regard it as a distinc-
tion to have enjoyed the friendship of
a red man who was a wag in every
sense of the word," observed a former
member of congress from Ohio in con-
versation with a friend.

"The wag to whom I refer was
known as Kickingberg and was a
Kiowa. He was a fine, handsome and
tall specimen of Indian manhood. He
and myself became fast friends and
often dined together.

"I recall an incident in which Kic-
kingberg played a part. It was an im-
portant conference between Dr. Rose
of Philadelphia and a delegation of
Kiowas and was held almost within
the shadow of Fort Sill. In the course
of his remarks Dr. Rose urged the
red man to follow in the steps of the
industrious white man—to get a piece
of land, till it, raise a family and be-
come a citizen of whom the community
might be proud. At the conclusion of
his remarks Dr. Rose announced that
he was willing to be interrogated.

"Kickingberg took the floor. He said,
Why don't white men do as white men
say? Raising his arm and pointing to
Fort Sill he continued, saying, Lots
white men there got no laws, no
farm—they carry guns."

"Dr. Rose was dumfounded. It
would have been certain death to have
truthfully explained to the Indians the
reason for the station of the troops at
Fort Sill. And so Dr. Rose made no
attempt to answer the question, which
had a demoralizing effect upon the con-
ference.

"A day or two later I met Kicking-
berg. I inquired why he made such a
speech and told him he had done
wrong. He nearly went into convul-
sions with laughter and regarded his
act as a great joke. Recovering him-
self he said:

"I knew doctor could not answer
question. I know, since as doctor gov-
ernment keeps 2,000 soldiers at fort
to shoot us down if we don't behave."

QUEER THINGS TO PAINT.

Peculiar Subjects For Pictures Se-
lected by Students.

A noted artist was addressing his
class.
"Young men," he said, "when you be-
gin to paint don't choose peculiar and
uncanny subjects for your pictures.
Some of you, though, despite me, will
choose such subjects. That has been
the case with all my classes.

"A country lad painted under me a
picture of Nebuchadnezzar eating
grass. The picture was intended to be
horrible and sad. In a giant land-
scape the king, nearly naked, crouched
on his hands and knees. He was eat-
ing greedily of a big bunch of grass
that he held in his left hand. His as-
pect was bestial and insane. The pic-
ture wasn't badly done, but whoever
looked at it laughed.

"Another student of mine once paint-
ed a picture that he called 'The De-
liverance of Jonah.' On a sea beach
Jonah knelt, his hands clasped and
his face turned skyward in grateful
prayer. The whale was disappearing,
its vast bulk was sinking into the sea."

"A young Australian painted 'The
Found of Flesh.' In this composition
the judge and the multitude of specta-
tors looked on while Fortia held a long
knife against the bare ribs of Shy-
lock. Shylock was howling with wild
open mouth and arms stretched out in
an appeal for mercy, and the blood
was beginning to flow from his side.
When this picture's disagreement with
Shakespeare's text was pointed out to
the young Australian he said, smiling
indifferently, that an error of that sort
did not interfere with the picture's
value as a work of art.

"Among the queer subjects that my
pupils have chosen to paint there have
been lepers, snakes, tombstones, rats,
tailors, worms, skeletons and surgical
operations."—Pittsburg Press.

The Judge Silenced.

In the famous trial of the dead of St.
Asaph, Mr. Eskiue, the great English
lawyer, put a question to the jury re-
lative to the meaning of their verdict.
Mr. Justice Butler objected to its prop-
riety. The counsel reiterated his ques-
tion and demanded an answer. The
judge again interposed his authority in
these emphatic words:

"Sit down, Mr. Eskiue. Know your
duty or I shall be obliged to make you
know it."

Mr. Eskiue, with equal warmth, re-
plied: "I know my duty as well as your
lordship knows your duty. I stand
here as the advocate of a fellow citi-
zen, and I will not sit down."

The judge was silent, and the advo-
cate persisted in his questions.

The Intelligent Male.

"Valuable male that," said the Bil-
ville citizen to the prospective purchas-
er. "Saved my life once."

"Indeed! How was that?"

Personal and Local
Notes.

After many days of mourning the
loss of a bunch of shaving and hair
cutting tools, Haddock & Hageman
have had the good fortune to recover
at least part of the booty stolen from
their shop on south Main street a few
nights ago.

Yesterday morning the 8-year-old
son of Mr. and Mrs. Andy Cunnin-
gham, of south Elizabeth street, while
playing about the Kemper barn, in
the rear of the W. C. Fess residence
on south Main street, discovered a
neat package lying partly under the
northeast corner of the barn, partly
shielded by the tall grass. Dragging
the package from its resting place,
he had opened it and was much sur-
prised at its contents. He carried the
treasure to his mother, who later in
the day returned the bundle, which
contained seventeen razors and a pair
of scissors, to the barber shop.

The thieves, however, kept one
razor and the money obtained in their
midnight raid.

The Latter Being Out Of The Game
With An Injured Hand - Lima
Had More Hits and More
Errors Than Marion.

With the Texas leaguer on the slab and one-legged Justi behind the bat, Lima handed another defeat to the Peoria-Marion Urbana aggregation of base ball stars yesterday afternoon. The game was rather a loose one, eleven errors being made by the two teams but the game was interesting in spite of this, some brilliant work being done along with the bad. Railing pitched a good game and with proper support would have allowed the visitors only one run.

The Mr. Vernon team arrived in the city this morning, being scheduled for a game at Wheeler park this afternoon and another tomorrow. The team is said to be fully as strong as the Wayne or Marion.

CHARGES

Of Gambling Made By the Detective

Who Visited Rooms Above
the Oak Last Night.

Gambling Affairs Cause Trouble Be-
tween Ote Wilson and Dick
Shaffer. The Former
Fined for Fighting.

Last evening, Detective Hugh Patton and Captain Wingate visited the rooms above the Oak restaurant where the former claims, poker playing and crap shooting was in progress. They found the doors locked and when they were admitted by Proprietor Guncheon they found the rooms deserted. Patton had a warrant dated Sept 1st, but he ordered Guncheon to appear at 9 o'clock this morning, without making a physical arrest. He insisted however, that gambling was carried on up to time of his arrival and will file a new affidavit against Guncheon under date of yesterday. The new affidavit has not yet been drawn.

After the visit of the officers to the Oak, Ote Wilson and Dick Shaffer got into an altercation on the street over the accusation made by Shaffer that Wilson had been running a gambling game. Both men were arrested for fighting and Wilson was fined \$15.00 this morning. Shaffer pleaded not guilty and will be tried Monday.

Little Troubles.

George May an old offender charged with drunkenness, was fined \$5 and costs and sentenced to ten days imprisonment in the county jail.

James Flynn J. V. Whiter and Paul Otto Hausberg were fined \$5 and costs each for drunkenness.

Mrs. Laura White colored of Rowlands avenue was arrested by Officer Hays on today on the charge of assault and battery. The complainant is Mrs. Virginia Randall also colored.

There is more catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a fatal disease and prescribed local remedies and constant injections to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by C. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and cures all cases of the system. They offer one bottle free for the trial. Send for the trial. Send for the trial. Send for the trial.

THE GREATEST RETORT HOT BLAST

The World Has Ever Known.

Greatest in durability and saving of fuel, and so reasonable in price that anyone can pay for it the first year in saving of fuel.

In offering this stove to the trade we feel assured we are offering the very best medium priced and most economical heating stove made. It has two magazines, one inside the other, and both suspended inside the drum from top of stove to well down into the fire chamber. These magazines are three inches in diameter larger at the bottom than at the top, thus preventing the fuel from "hanging-up" as in other soft coal magazine heaters. The inside magazine containing the fuel and holds enough to keep an ordinary fire from eighteen to twenty-four hours. The fuel is put in through the top of stove, and the magazine can be completely filled without, in the least, interfering with the fire. The magazine is slotted from near the bottom to the top (see sectional cut) and all the gasses that are generated pass out through these slots into the next, or draft magazine which is not slotted but entirely surrounds the fuel magazine, leaving an open space of one inch all around for the free passage of the draft. The draft is admitted at the top of this second or draft magazine through a circle of holes (see sectional cut) reaching entirely around the inside of fuel magazine. It then passes straight down inside the draft magazine, taking with it all the gasses that have been generated in the fuel magazine and passed out through the slots into the draft magazine, and discharging them directly into the hot coals in the fire chamber, thus burning every particle without making any of the black smoke turning off by ordinary heaters. The draft is controlled by a slide which opens or closes partially or entirely the holes where it is admitted. In outside appearance this stove is similar to "Oak" stoves, having nicked ring foot rails, name plate and a handsome urn. It is also fitted with a large ash pan, thus insuring cleanliness.

Call and see the largest assortment of Ranges and Heaters ever shown in one store in Northwestern Ohio. We do not ask you to look at one or two makes as others do, but show you stoves from nine different factories, and WE GIVE A GUARANTEE WITH EVERY STOVE WE SELL. Better get our prices before you buy.

"WHAT A Wonderful Artist Nature Is."

Honest Words

Of Father Rupert as He Looks Upon

Scenes, and Visits Towns, in Ireland, That Are Dear to Many

Hearts in Lima, on Account of Having Been the Home of Their Happy Childhood Days.

Listowel, Ireland, Aug. 31, 1904.

Times-Democrat, Lima, Ohio:

I spent a very pleasant day at Abbeysfield and Ballybunion, and as there are many in Lima from those places and vicinity, I will write a few words about them.

Listowel is 51 miles southwest of Limerick, and is beautifully situated on a high bank along the Feale river, which is here a stream of considerable magnitude. It is a clean, well-built town, has two elegant stone churches, and all the buildings are substantially erected. It has 3,500 population, who seem to be very happy amidst their delightful scenery, but complain that there is no work, no manufactures, and no income except from farm work, which makes but poor and slow returns.

Of late years, however, Listowel has become a center for the sale of farm products by reason of its railroads, yet not enough so to cause any material difference in its routine life. The river Feale is here crossed by a superb stone bridge of five arches, each arch having a span of fifty feet, and the scenery amidst flowering trees is beautiful, and affords a most refreshing and delightful walk. Only a few rods from the Square, on the right bank of the Feale river, are the remains of Listowel castle, that is noted for holding out for Lord Kerry longer than any other during the Munster war. I walked all around it and through the interior. A part is now used for a flouring mill, the remainder forms a noble ruin, and is of exceptional interest, both to the antiquarian and pleasure seeker. In the year 1690 this castle was assaulted and taken by Sir Charles Wilmot, who mercifully and cruelly put all the brave garrison to the sword after they had surrendered. The eldest son of Lord Kerry, a mere child of five years of age, had been spirited away by his nurse, but was discovered, captured, brought before the Lord President, and his after-fate is shrouded in deepest obscurity.

My noble told me that the word "Listowel" was an abridgement for "Castle of Tuathal," who is said to have been one of the earliest and most powerful kings of southern Ireland, and whose descendants ruled here until the Danes invaded this part of the country, and devastated the entire kingdom. If Listowel had factories and works like our American towns, it would be a most delightful place to live in; so abundantly blessed by nature.

Abbeysfield is a small village in the midst of a good farming region. The land is rolling and undulating, with some of the most fertile regions in Ireland lying between sloping declivities, that are here called mountains by the natives, though they rise only about one thousand feet above sea level.

Within the last year or two Listowel has acquired some prominence from the fact that it affords easy access to the town of Ballybunion, a famous watering place near the mouth of the river Shannon.

Ballybunion is only ten miles from Listowel, and is connected with it by a most curious kind of a railroad imaginable. This is constructed with but one rail, or as they say here, "one line," resting on an iron trestle work three and one half feet high, and looks more like a fence than anything else.

How can a railroad train run on one rail, and that raised so high in the air?

Why, the drive wheels have double flanges, run on the rail, and the engine and cars are all double, and hang down on each side of the rail like a pack-saddle does from a horse. The engine has two boilers, two fires, two cylinders, and two smoke stacks, in fact everything double, so that the two sides balance each other; and although the drive wheel has a diameter of only 22 inches, a speed of eighteen miles per hour is obtained. The cars are similarly constructed in two sections, one section hanging down on each side of the elevated rail. I had a round trip ride on this road, and must say it is superb. You really get a double ride, one forward, and the other reverse, and at the same time.

ence or log, and the ends going alternately up and down. I must add, however, that the engine and cars also have a balance wheel on each side at the bottom, revolving horizontally against an iron beam.

The road is doing a good business. The oddity of construction, as well as the fame of Ballybunion, is attracting many tourists from inland and abroad. This manner of railroading seems to be very safe, for there never yet was an accident on it.

Ballybunion is delightfully situated, and is becoming deservedly popular as a bathing place, amidst cliffs and caves, that give many attractions to students and geologists as well as to holiday makers. The caves here are numerous and wonderful.

I visited the largest one, accessible only at low tide. It contains many winding passages about seventy feet high, and in some instances several hundred feet long, with natural posts of solid rock bearing up the rocky roof, like massive pillars do in a great church. It is a grand work of nature.

There is a continuous wild and impressive sound issuing from the depth of these caves, like echoes from the noise made by the waves dashing through the dark and gloomy cavern. What a wonderful artist nature is.

A little beyond the station are the ruins of the ancient seat of the Earls of Kerry, called the Ballybunion castle. There is also an old stone bridge, said to have been built in 1320, and it is well preserved. All these things ought to attract many more people to Ballybunion than they have thus far done.

Yours very respectfully,

F. G. RUPERT.

THREE JURORS CURED

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler, of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some soured meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the drugist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the box I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by all druggists.

BOY'S NEW TRICK.

The small boy has a new trick for bothering trolley-car motorists. He gets a corn-cob, ties a long black thread to it and throws it over the overhead wire. Then he dodges into a dark doorway and waits for the trolley car. The motorman seldom notices the corn-cob pulled up close to the wire, but the minute the little wheel hits it off goes the pole.

Baby Costs Too Much

When the price paid is the mother's health and happiness. The father doesn't realize as he romps with the child what years of wily cunning Chronic Herpicide is a high price to pay for the painful joy of maternity, yet it is at such a cost that many a woman becomes a mother. Such a price is too much because it is more than nature asks.

By the use of Doctor Pierce's Favorite Prescription maternity is made painless, and a quick convalescence is assured in almost every case.

"I am pleased to give my testimony and wish I could find words strong enough to praise other sufferers to use Dr. Pierce's Favorite Prescription."

Writes Mrs. Wesley Day, of Keosauqua, Iowa, Box 6. "For eight years after my little boy was born I suffered with female weakness, also soreness in ovaries, especially on my right side and pain in back. Was so miserable sometimes I did not know what I was going to do. Tried several doctors but derived no benefit until I began using Dr. Pierce's Favorite Prescription. Had only used four bottles, also some of Dr. Pierce's Anodyne and Healing Suppositories, when I felt like another person. I recommend Dr. Pierce's medicine to all my friends. If anyone wishes to write me I will gladly answer."

Dr. Pierce's Favorite Prescription contains no alcohol and is entirely free from opium, cocaine and all other narcotics. The dealer who offers a substitute for "Favorite Prescription" does so to gain the little mere profit paid on the sale of less meritorious medicines. His profit is your loss; therefore, accept no substitute.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and other substances which form the principal ingredients of most so-called Hair Vigors.

Newburo's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots. It is the original and only genuine scalp germicide manufactured.

PARALYSIS CURED.

MR. JOHN KENNEY'S CASE YIELDS TO TREATMENT.

His Condition Had Been Thought Hopeless—His Recovery a Great Wonder—Some Details Given by Himself.

Mr. Kenney has actually escaped from the paralytic's fate to which he seemed a short time since hopelessly doomed. The surprising report has been fully verified and some important details secured in a personal interview with the recent sufferer.

"The doctor," said Mr. Kenney, "told me that if I wanted to live any length of time I would have to give up work altogether, and he told my friends that the paralysis which had begun would in time involve my whole body."

"Just how were you afflicted at this time?" Mr. Kenney was asked. "Well, I had first hot, and then cold and clammy feelings, and at times my body felt as if needles were being stuck into it. These sensations were followed by terrible pains, and again I would have no feeling at all, but a numbness would come over me, and I would not be able to move. The most agonizing torture came from headache and a pain in the region of my spine."

"Were you able to sleep?" "No. That was one of the worst features of my case. Night after night I could not get any natural sleep and my system was wrecked by the strain of the torturing pains and the effect of the opiates I was forced to take to induce sleep. As I look back on the terrible suffering I endured during this period I often wonder how I retained my reason through it all."

"Have you got rid of all these troubles?"

"Yes, indeed, I am entirely rid of them, and am daily working at my trade as a hat finisher, but relief came from an unexpected quarter. My help came from Dr. Williams' Pink Pills for Pale People. I read one day in a paper an account of a case like mine which had been cured by these wonderful pills for the blood and nerves. I bought a box and began to take them. The very first box seemed to help me, and seven boxes made me entirely well. There can be no doubt about the thoroughness of my cure, for I have worked steadily ever since and that is nearly four years."

Mr. Kenney is at present employed by the Merriman Hat Company and resides at 101 Aubin street, Amesbury, Mass. The remedy which he used with such satisfactory results, is sold by all druggists throughout the world, and is offered as a specific for all nervous troubles. Dr. Williams' Pink Pills have cured neuritis, nervous prostration, St. Vitus' dance, partial paralysis and locomotor ataxia, as well as common ailments such as headache, insomnia and debility.

HIS VOICE WOULD HOLD IT.

Ex-Lieutenant Governor Timothy Woodruff had all sorts of experiences in Cripple Creek. He told a miner that they were the jolliest lot of handshakers in that region he had ever struck. "A husky fellow asked me for a quarter."

"What do you want it for?" I asked. "To get a social glass," was the answer.

"I saw he was as full as he could hold, and observed: "Say, you're overflowing already. You won't hold any more."

"You've got no perception how," he replied. "Can't you observe the holowness of my voice?"—New York Times.

RADICAL LIQUOR CURE.

In Persia the Drunkard's Fate Are Said to be the Sidewalk.

"There is only one custom in our country which I would like to see established in America, and that is the custom of dealing with drunkards," said a Persian. "In our country when a man gets drunk we take him and nail him to the sidewalk, driving the spikes through his ears. Then when other people come along they spit in his face and kick him until he is sober. I think this method would do a great deal of good in America, because you have more drunkenness than we do. There are no saloons in Persia, the chief beverage being homemade wine. They don't even know what beer is."

"Our officials have several ways of making prisoners confess to crimes," said the Persian. "The favorite method is to take them on a stand around which all the people of the town gather and then put out one eye. If the crime is not very great an arm is cut off or a leg severed. If it is only a trivial offense probably an ear is sacrificed. Very often innocent people are subjected to these torments, but it cannot be helped."

"The Persians very seldom hang a man for crime. If he kills another he is fined \$15 and allowed to go. If he kills ten or a dozen and the people finally decide that he ought to be put out of the way he is hanged. But he is not hanged as they hang men in this country. He is hanged by the feet and a heavy weight is tied to his head. Then he is allowed to die. If the accused prisoner is a woman her hair is shorn from her head, provided the offense is a trivial one. If it is a serious one she may be turned into a room filled with mad cats and be scratched to death."

"Persian jails are dark cellars and contain no furniture whatever. The government doesn't feed prisoners, this being left to friends of the accused. If he happens to have no friends he will starve to death. Oftentimes when food is brought by friends the keepers of the prison and the other officials appropriate it, so the prisoners have to go hungry."—Sioux City Journal.

TITLES.

The centurion, as the name implies, was the commander of 100 men in the Roman army.

The title bailiff was formerly very honorable, and the official was vested with many important powers.

The title colonel comes from the word almost the same in several languages, signifying a column. The colonel was so called because he led or commanded the column.

The title mayor comes from the French and originally signified "one who keeps guard." He was the head steward of a city, administering its affairs in the name of the king.

Emperor was originally a title of honor bestowed on a victorious general. After the downfall of the Roman republic it became the title of the supreme ruler and had the sense of our word emperor.

The royal title bog has now almost disappeared and when used in the altered form of bog is applied to a military rank in the Turkish army. Originally it was deemed more honorable than that of sultan.

Mistaken Identity.

Sir Thomas Robinson was a tall, middle-aged man, and his appearance was rendered still more striking by his hunting dress, which consisted of a tight green jacket, buckskin breeches and a position's cap. He once set off in his hunting suit to pay a visit to his sister in Paris. He arrived at the house while there was a large company at dinner. The servant announced M. Robinson, and in walked this remarkable figure, to the amazement of the guests. One of them, a French abbe, lifted his fork three times to his mouth and each time laid it down without tasting the food. Unable at last to restrain his curiosity longer, he burst out eagerly, "Excuse me, monsieur, are you the famous Robinson Crusoe so remarkable in history?"—London Times.

A Disconsolate Widow.

"Life has no more charms for me. I'll retire to a convent and spend the rest of my days in prayer and meditation," said a young widow. "That would be the same as committing suicide. You are rich and beautiful and only thirty years of age." "Twenty-nine, if you please!"

The Lucky Day.

"What day of the week do you think is the luckiest to get married on?" queried the soft and sweet young thing.

"The eighth," replied the confirmed bachelor, refusing to be sentimental even for a minute.—Cincinnati Commercial Tribune.

Enough.

"I understand that the relatives of the late Jabez Flint, the millionaire, are going to erect a monument to his memory."

"What did he ever do to deserve a monument?"

"He died."—Brooklyn Life.

Pleasant.

"Keep your seats, please, ladies and gentlemen," said a theatrical manager. "There is no danger whatever, but for some inexplicable reason the light has gone out." Then a boy shouted from the gallery, "Perhaps it didn't like the play."

A Close Finish.

Tom—And so you won on the last race? Harry—Yes, but the finish was so close that I would have lost if the other horse had stuck out his tongue.—Kansas City Journal.

A little life may be sacrificed to a sudden attack of cramp if you don't take Dr. Chamberlain's Cough Remedy. On the

SELFISHNESS.

Washington, Pa., Observer.—It is universally admitted that selfishness in some form is at the root of all the vices, crime and evil of the world; and yet it defies all attempt at eradication. Indeed it is well nigh impossible by any direct effort to diminish that self love which has been allowed to occupy the entire soul of the human heart and mind and has grown into the sturdy weed called selfishness. But let such a one become thoroughly interested in something outside of himself and his own interests; let him become enthused and his energies aroused and a telling blow has been struck at the selfishness which has heretofore degraded him. "To overcome evil with good" expresses a deep and true philosophy which we do not always fathom when we repeat the words. The enthusiasm which lifts a man out of himself, which makes him forget for a time his own petty affairs and fills his mind with other thoughts and his heart with other affections, hopes and desires is a good, which, by its very presence, will overcome much evil. A pure and pervading interest in the desire for the good, the true and the beautiful in all its forms; a sincere, earnest and permanent love and sympathy leading to energetic effort, and breathing its own life, into that of others, will lift the world to a higher plane and make life worth living to every one who shares in its influence.

CURED WHEN OTHERS FAILED.

1036 Winnebago Avenue, Chicago, Ill., Oct. 25, 1902.

Wine of Cardui can always be relied upon to cure when everything else fails. It is a certain cure for female diseases in their worst forms. I suffered for years with ulceration. Intense pains in the womb and ovaries and dreadful headaches unfitted me for my work. Finally I grew so ill that I had to keep to my bed. The pains were so intense at times as to cause spasms and a disagreeable discharge. I had drained my life forces. In my extremity after all had failed, I tried Wine of Cardui. After using it for two weeks I began to improve so rapidly that I felt encouraged to keep up the treatment, which I did for eight weeks, but at the end of that time I was entirely cured. What a relief was mine and how new and beautiful life looked to me when my health was restored. Only those who have passed through such a siege of sickness as I have will understand how much I value Wine of Cardui. It is indeed a boon to sick women.

Mrs. Haskell, Worthy Vice-Templar, Independent Order Good Templars, of Silver Lake, Mass., tells of her cure by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Four years ago I was nearly dead with inflammation and ulceration. I endured daily untold agony, and life was a burden to me. I had used medicines and washes internally and externally until I made up my mind that there was no relief for me. Calling at the home of a friend, I noticed a bottle of Lydia E. Pinkham's Vegetable Compound. My friend endorsed it highly, and I decided to give it a trial to see if it would help me. It took patience and perseverance for I was in bad condition, and I used Lydia E. Pinkham's Vegetable Compound for nearly five months before I was cured, out what a change, from despair to happiness, from misery to the delightful exhilarating feeling health always brings. I would not change back for a thousand dollars, and your Vegetable Compound is a grand medicine."

"I wish every sick woman would try it and be convinced."—Mrs. J. A. Haskell, Silver Lake, Mass. Worthy Vice-Templar, Independent Order of Good Templars.

HUNDREDS OF LITTLE ONES

Are Enjoying the Fun Offered By a
Free Day at the County Fair.

Association Closes the Week With Fine Weather,
Enormous Crowds and a Good Margin
to Work on in the Future.

The forty-second annual fair of the Allen County Agricultural society closed today, and the week wound up with every evidence of a great and glorious success.

Yesterday's attendance was almost as large as Thursday, and by far the biggest Friday crowd ever seen on the grounds. Today the little folks have things all their own way, and are taking advantage of the opportunity.

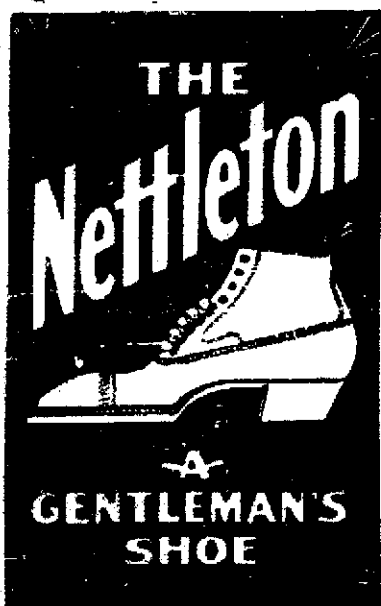

The board will pay premiums this afternoon at 1:30, and will do it with a more willing spirit than in several seasons gone by, when it was a squeeze to keep from going deeper into debt. This year the balancing of the books will find the board on the right side of the ledger, and after every dollar of expense is met, a tidy sum will be banked to meet a rainy day.

In spite of the very best purses offered by an agricultural association as an inducement for harness races, two failed to fill, and the field of horses was small. It was said that the cause was due to a failure on the part of horse owners to get a few valuable seconds off of their time at the July meeting of the Lima Driving Club. Such indeed seems to be the case, but on the other hand it has had the effect of convincing the public that there can be nothing but honest racing at Lima's half-mile track. The National association is after the offenders, who are holding up in order to keep in slow company as long as possible, and representatives have been silent spectators at several meetings this year to see whether or not the officers of the meeting are playing a square game or having "an understanding" with the drivers.

Another complaint is made by horsemen who took part in the half-mile track. One who was present yesterday and has a horse that can go six beats better than 14, stated it was the fastest track in the country in spite of its being 25 feet over the mile. It is so recognized by the fraternity, and only those who have nothing to fear from a mark feel safe.

caire, the former having the best of it by a neck. Orme finished first, Buccaire second, Widow McGoogan third. Time, 2:41.

There was considerable interest, at least among a few, in the 3-mile heats. A heavy side bet was offered by the owner of Cormack, who, together with his friends, raised \$255 to wager that Cormack would beat Tiger Jim, owned by Carl Drake. The latter accepted the challenge and a number of the local sports heeded his advice and raised the money to meet the purse on Cormack. The result proved Tiger Jim capable of not only defeating Cormack, but winning the heat, over Jack Addie, the favorite.

In the second heat Jack Addie and Verna Rice fought it out, the former winning, and in the final test with Tiger Jim, Jack Addie clinched the big end of the purse. Cormack met with a serious misfortune in the second heat, by turning his ankle and breaking a tendon, which may put him out of the business for good.

The summary:

Novelty Race.
The novelty race between H. W. Bennett's duns and black cobs, the former drawing the heavy ambulance, and the latter a light rubber-tired wagon, was a very pretty event. The duns had the pole and made a great race for it, but the blacks headed them at the quarter and came down the stretch with a safe lead. The time, 1:09, was a fast go.

Of an Old Account Permitted
by a Depositor.**

In 1890 a depositor left with the Lima Home and Savings Association \$146.04, adding nothing to the account since, except the semi-annual dividends that The Lima Home and Savings Association has paid. The account now amounts to \$330.16, for which the depositor can draw a check at any time. Of the \$330.16, the amount of \$234.12 is interest. If the \$146.04 had been loaned at six per cent. interest, payable annually, it would have earned during the same time only \$122.67, a difference of \$111.45 in favor of depositing with The Lima Home and Savings Association. The depositor has permitted The Lima Home and Savings Association to show any one calling at its office in the west side of the Masonic building, Lima, Ohio, just how much the increases were each six months. Many other accounts could have been selected, all of which would demonstrate the importance of depositing money where it will yield "good returns. Five per cent. interest is paid for deposits if left for six months; but the plan above pays the best, the rate having been at least six per cent., compounding semi-annually for over seventeen years.

The Lima Home and Savings Association invites you to call at its office in the west side of the Masonic building, Lima, Ohio, and make free inquiry as to its assets, offices, ways of deposit and rates. To supply the applications for loans to build more homes in our city, is the object of this call for money.

WILL

Nominate By Primary System.

The Democrats

Refuse to Depart From
Old Custom.

Republicans Will Make Nominations In Delegate Convention.

Republican City Committee Submits a Proposition On School Question to Democratic Committee.

The democratic city central committee, at a meeting held in the assembly room at the court house last night, took up the question of the manner of making nominations for the democratic ticket which will be placed in the field at the fall election. The delegate convention system was opposed by every member of the committee and but few favored the mass convention system, preferring to remain with the old primary election system, which is more popular with democrats generally in this city and county. The committee decided to make all of the nominations for the municipal ticket by the primary system and on the day of that primary a voting place will be established in each of the eighteen voting precincts in the city. The primary will be conducted with practically no expense, the committee and other members of the party volunteering to provide voting places and judges and clerks without cost.

The republican committee which is dominated by Quail, Downing, Hoefner and Charley Evans, has decreed that the republican nominations on the city ticket shall be made in a delegate convention and to that end the tenants of the anti-Hanna faction of the party have prepared their slates. Quail and Downing are determined that no republican who has ever been identified with the Hanna camp shall receive a nomination and for that reason the primary system which has been in vogue with the republican party in the city for years and years has been placed on the shelf and a delegate convention, which Quail can control and dictate to has been ordered. Some of the old "regulars" who are entertaining aspirations for nominations will realize the truth of this statement when the convention is held.

The school board question was also taken up by the republican city committee at its meeting night before last, and last night Evans and Downing submitted to the democratic committee a recommendation by which they propose to keep the school board "out of politics." Under the new election laws the board in this city will be constituted of seven members, four of whom shall be elected one from each ward and the remaining three of whom shall be elected at large. The republican committee proposes that the democrats be permitted to select three members of the board—2 from the wards and one at large—and that the republican delegate convention select four members of the board—2 from the wards and two at large. The question now is will this plan keep the board "out of politics?"

According to the secretary of state's digest of the Ohio election laws for 1904, there will be two justices of the peace to elect in this city at the November election. The digest says:

"The successor to a justice of the peace whose term will expire within twelve months from the first day of November, 1904, will be elected at the November election of 1904, and take office at the expiration of his predecessor's term."

Justice Reilly's term expired last spring and he was appointed to fill the vacancy until an election could provide his successor and Justice Mowen, who also have to have a successor elected this fall because his term, under law in effect at the time of his election, would expire next spring or within the twelve months referred to in the above clause from the digest. Candidates may now get busy.
